CMR-S 60T

CEILING SUBWOOFER

Description

CMR-S 60T is a ceiling subwoofer, suitable for a wide range of applications. Thanks to its elegant and discreet design and refined finishes, it is suitable for all environmental and architectural conditions. Featuring a 6.5'' woofer and 80 W RMS power, it is also equipped with a transformer for connection to constant voltage lines (70/100 V). The high quality of its transducer guarantees faithful and precise low frequencies reproduction and allows to reach truly remarkable sound pressure levels for such compact product. The connection is simple and safe thanks to the removable four-pole screw terminals. The front grille is fixed by magnets and can therefore be easily removed to access the power rotary switch (the line transformer allows selection among five power rates).
