HL 38-S WP

PROFESSIONAL FLYABLE SUBWOOFER

Description

The HL 38-S is a professional subwoofer designed to deliver powerful and deep bass in outdoor environments. Thanks to its robust construction and resistant materials, it is ideal for outdoor events, concerts, fixed installations and any situation that requires high audio performance. It features a high-quality Baltic birch plywood cabinet, for impeccable sound reproduction and greater longevity, which houses a 18" neodymium transducer with a 4.0" voice coil capable of handling frequencies between 30 Hz and 140 Hz with maximum linearity and low distortion up to 136 dB. The hardware is designed for quick setup and optimal positioning in any context. The robust front grille is powder-coated and features a special acoustic-transparent coating that helps to further protect the transducers from dust and debris. The HL 38-S is the perfect solution for those looking for a reliable, durable subwoofer capable of ensuring exceptional performance in any condition.
